MAKE IT YOUR OWN MODULAR DISPLAY & PHOTO BOOTH SYSTEM

We take pride in presenting our innovative Modular Display & Photo Booth System—a versatile solution designed for effortless assembly. With its stunning pre-designed structure, set-up can be completed in under 15 minutes.

Our user-friendly system streamlines installation, allowing you to focus more on your core objectives. The Display & Photo Booth System effectively showcases your company, products, events, and services to your target audience.

The system is designed to be fully customisable. Our modular design enables you to add unique themes and props during the ordering process. For example, you can select themes such as a Snow Globe, Space, Undersea, City, Town, and/or Summer concepts, any Theme, Brand or Product can be integrated. The system is available in two sizes: 2m and 3m.

Customisation is simple. Add your branding, custom logo and/or tagline to the front base nameplate, select a custom or stock backdrop theme, arrange your products or props, and you're ready to go.

The "Make It Your Own" Display & Photo Booth System has been specifically designed for product displays and brand awareness campaigns.

It's ideal for promotions in shopping malls, department stores, and airports. During the ordering process, you can choose bespoke custom colours, add branding, and position your products in behind the large crystal acrylic display dish for maximum impact.

Built for both indoor and outdoor use, the system includes integrated LED lighting that can be powered by mains electricity or internal batteries. This self-sufficient design makes it perfect for remote locations where power may be limited or not available.

Wheelchair Accessible.
