JBL Leisure take pride in presenting the innovative Modular Display & Photo Booth System, designed to effortlessly assemble with its stunning pre-designed Modular System. With a straightforward installation process, you can set up the system in under 15 minutes.

The user-friendly assembly allows you to streamline setup, giving you more time to concentrate on your core objectives, the Display & Photo Booth System effectively presenting your company, products, events & services to your chosen target audience.

Designed to do just that "Make it Your Own", using the custom modular system that enables you to add your own custom themes & props during the ordering process, for example shown is the Snow Globe or why not a Space, Undersea or Fashion theme, just about any theme and products can be used.

Available Sizes - 2m & 3m, custom sizes on request.

Just add your Custom Logo and Title to the front base name plate, add your custom or stock backdrop theme, add your products or props and away you go. Ships in its own custom travel crate.

Make It Your Own Display & Photo Booth System has been designed to use as a Product Display and Brand Awareness showcase unit. Perfect for Promotions in Shopping Malls, Department Stores and Airports. When ordering you just customize your colors, add your branding, once installed simply display your products in inside or suspended front of the large Crystal Clear Acrylic Display Dish.

The system is designed for inside and outside use, with its own built-in LED lighting that can be mains powered or used with built in batteries making the unit self-sufficient, making it ideal for remote use, where there is no power available or power supply may be an issue, such as Town & City Centers.

Wheelchair Accessible
